What good is getting hundreds of pages of returns if you have to spend hours sorting through them to find relevant content?

And then more time to verify whether or not the content you found is credible and accurate? The **Scholastic GO!** search engine sits on top of hundreds of thousands of verifiable content assets to make searching simple and learning authentic.

Contrary to popular belief, **students do not instinctively know how to navigate the abundance of information available to them** through traditional and digital sources.

of students have no idea how to locate the articles and resources they need for their research.

Scholastic GO! offers students a portal to the more than 115,000 credible, accurate, and reliable articles written by subject-area experts and professional editors.

60%

of students don't verify the accuracy or reliability of the information they find.

While students need to cultivate their ability to verify information, they also need to have trusted sources to discover the information they are seeking.

Scholastic GO! articles and content are written, edited, and updated by the industry's best and most trusted researchers, writers, and editors.
