"As a homeschooling mom, I'm always looking for resources to supplement what we are working on. I was thrilled to discover the variety that Scholastic Teachables offers. We have used a wide array of worksheets including handwriting and math practice. My children have loved the mini-books because they are an engaging way to cover topics. There are numerous themed worksheets available to cover holidays and events, and I'm really looking forward to the bridging packets available for kids to use over the summer. I'm always discovering something new to use and I love it!"
