Introduction

The ***Scholastic Reading Counts! Installation Guide*** shows how to install the *Scholastic Reading Counts! (SRC!)* and Scholastic Achievement Manager (SAM) software. The sections in this guide correspond to the discs in the *SRC!* installation kit.

Getting Started

Scholastic recommends that these programs be installed by a school or district administrator; however, anyone with the following attributes may install the software:

- Access to the server computer on which the *SRC!* software will be installed.
- Full network-level administrator permissions, including permissions that allow modifying network settings and user privileges. This is controlled by a network administrator, as determined by school or district IT policies.

Windows and OS X Platforms

Installation steps on Windows- and OS X-based platforms are essentially the same and any significant differences are noted in the text. Windows and Macintosh screens display slightly different button designs but, unless otherwise noted, all labels are the same.

Server Technical Requirements

See the ***Enterprise Edition System Requirements & Technical Overview*** for version 2.1, available at the [Scholastic Education Product Support](http://www.scholastic.com/src/productsupport) (www.scholastic.com/src/productsupport) website, for server and workstation requirements.

A Note About Installation

Before installing *SRC!*, visit the [Scholastic Education Product Support](http://www.scholastic.com/src/productsupport) website to download the most recent software updates.

A Note to Scholastic Hosting Customers

This guide is for customers installing Scholastic Achievement Manager on local servers, not for customers using Scholastic Hosting or SAM Web over the Internet. See the ***Scholastic Hosting Users' Guide*** at the [Scholastic Education Product Support](http://www.scholastic.com/src/productsupport) website for information on setting up and using Scholastic Hosting services and SAM Web.

SRC! and SAM Installation

Installing *SRC!* is a multistep process that covers:

- Installing SAM software on a server and establishing network connections to workstations
- Installing *SRC!* software on a server and establishing network connections to workstations
- Activating SAM licenses

SAM v2.1, included in the *SRC!* installation kit, will not work with older versions of other Scholastic Enterprise Edition programs. These programs will need to be upgraded to v2.1 to work with SAM v2.1. Installing SAM v2.1 automatically upgrades an older server to v2.1.

Installation Order

Scholastic strongly recommends performing the installation in the following order:

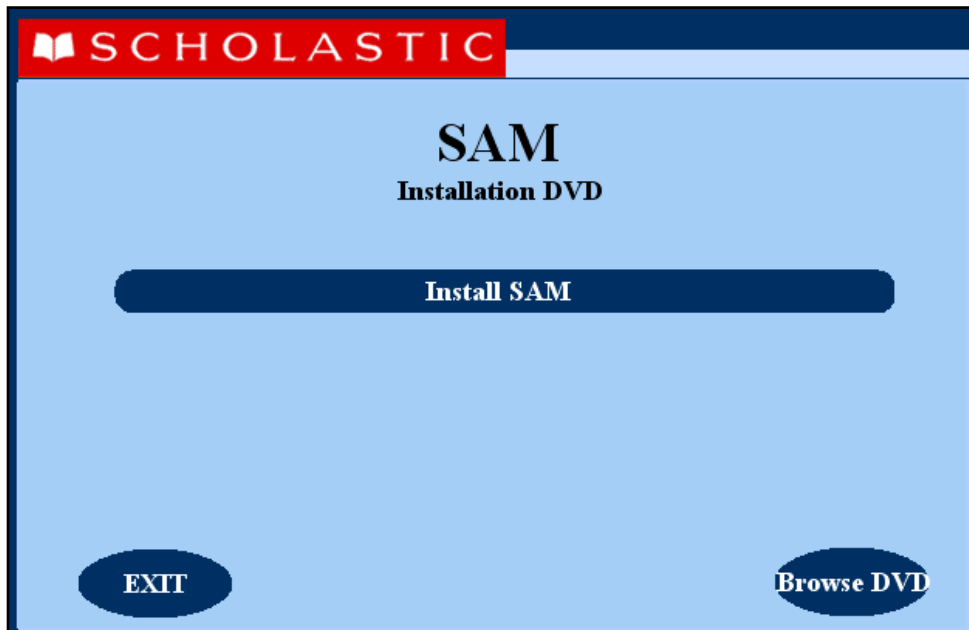

1. **SAM Installation Disc (Disc 1):** Installs SAM software on the server and establishes the connection between the server and workstation computers as well as SAM Connect (*page 5*).
2. **SRC! Installation Disc (Disc 2):** This is the *SRC!* software, which should be installed on the same server where the SAM Server is installed. It also contains instructions for linking to the *SRC!* client through a browser.

If SAM is already installed on the server, users may proceed directly to *SRC!* installation (*page 22*).

NOTE: If upgrading from a previous version please note that the version 2.1 client software is browser-based and resides on the server so old clients will remain on student workstations. In order to avoid potential confusion Scholastic strongly recommends removing desktop shortcuts for all previous versions of Enterprise Edition applications from all student workstations.

Installing SAM

To begin installing:

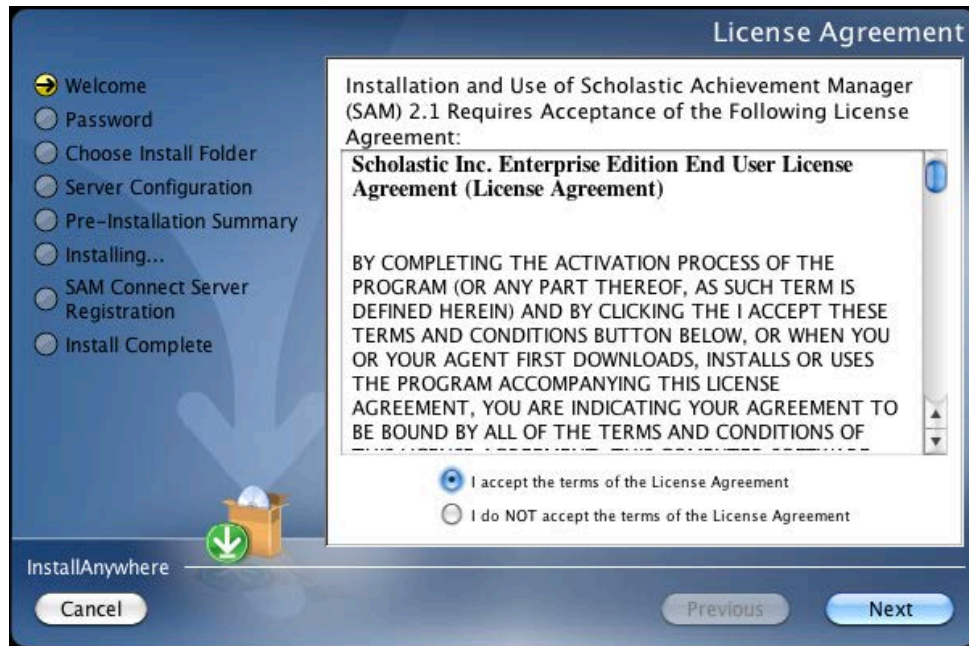

Insert the SAM Installation DVD (Disc 1) into the DVD-ROM drive of the server computer that will house the SAM Server. Double-click the **SAM Server** disc on the desktop, then click **Install SAM** to begin the installation process.

Windows Installation Note: On Windows platforms, the screen appears directly after inserting the DVD-ROM.

License Agreement Screen

The License Agreement Screen is the first screen to appear.

Installing and using SAM requires accepting the License Agreement. Click the button next to **I Accept the Terms of the License Agreement** to accept the agreement and continue with the installation process.

Selecting **I Do NOT Accept the Terms of the License Agreement** stops the installation process at this step.

Click **Next** to continue.

Password Screen

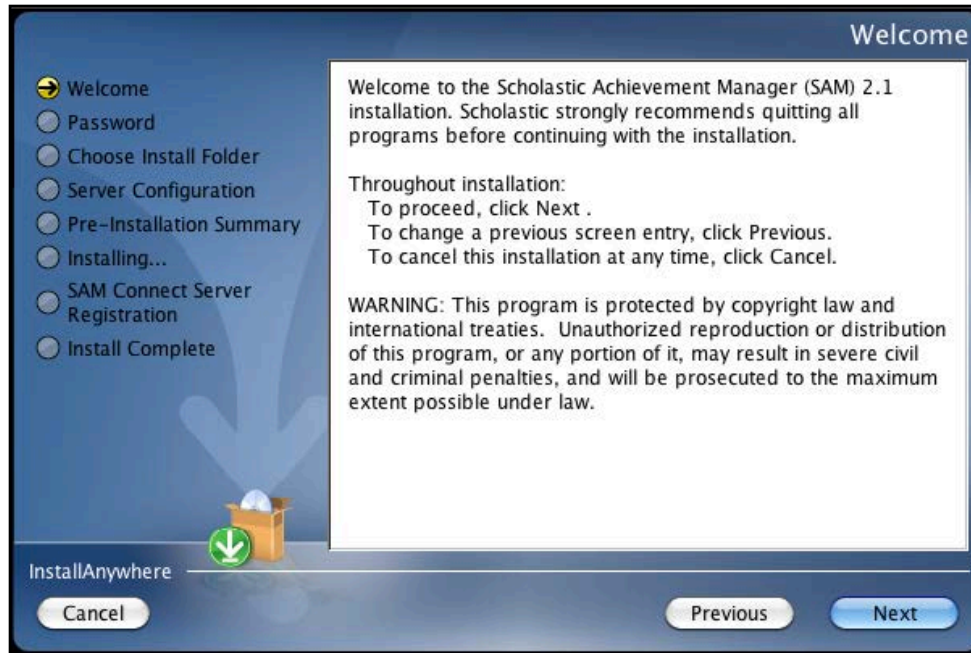

If installing on a OS X-based server, the Password Screen appears (installations on Windows-based servers skip this step and go right to the Welcome Screen).

Enter the system password for this machine. Click **OK**. The installer scans the computer and configures the installation process for the system.

Welcome Screen

After clicking **Install SAM**, the installation Welcome Screen appears:

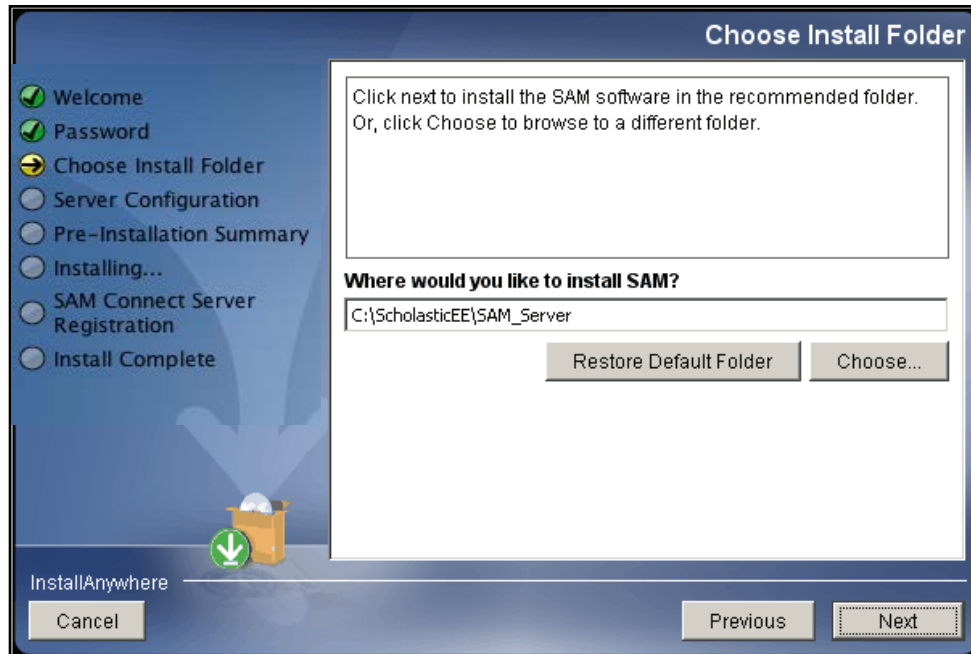

Installation instructions appear in the right window, while the left side of the screen displays progress through the installation process. The following buttons appear throughout the process:

- **Next:** Click to continue the installation
- **Previous:** Click to return to a previous screen
- **Cancel:** Click to exit the installation process at any time

Click **Next** to continue installation.

Choose Install Folder Screen

The system suggests the folder where the server folders and files will be installed.

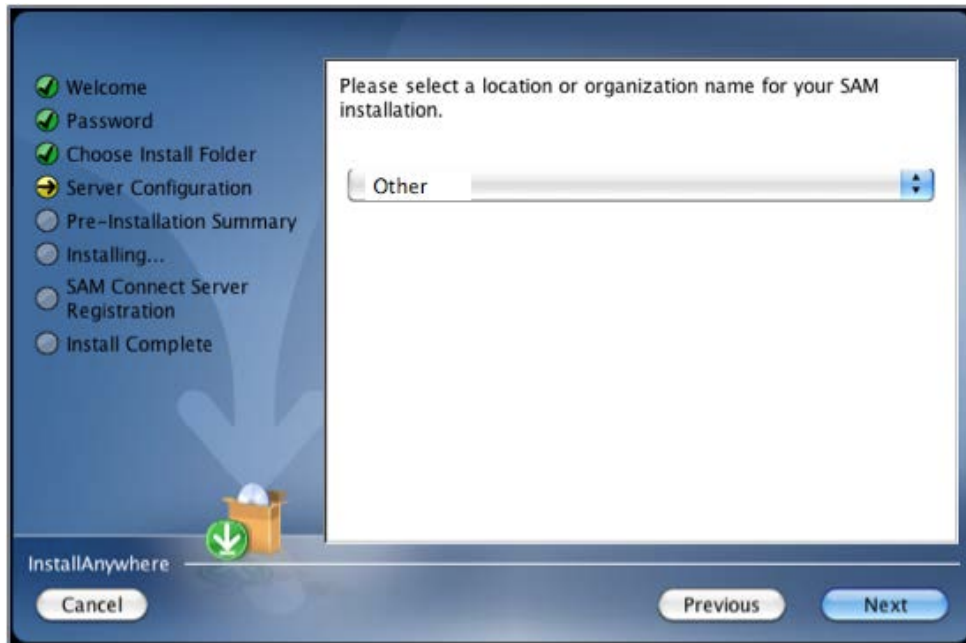

Click **Choose** to select a different folder. Click the **Restore Default Folder** button to return to the default selection after clicking **Choose**.

NOTE: If upgrading an earlier version of SAM, the installer will find the current installation and select it. **Do not change the folder the installer selects.** The installer will also back up the existing database, so check to make sure there is sufficient space on the server's hard drive for this operation.

Click **Next** to continue. The program configures the installer for the system and starts the SAM Server. If upgrading an older version of SAM, the installer will import data to the new version at this time. This may take a few minutes before the installer moves on to the Choose Location Screen.

Choose Location Screen

On this screen, select the location (state) or organization name for the SAM installation from the pull-down menu. Users outside the United States should select **Other** from the pull-down menu.

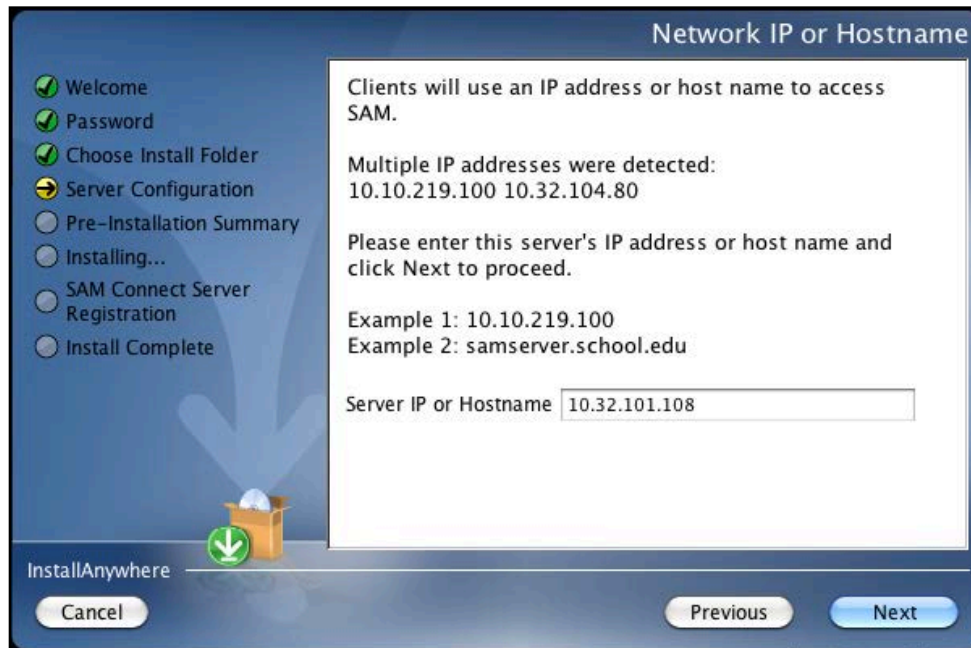

Click **Next** to continue installation.

Server IP or Hostname Screen

The system automatically detects and displays the SAM Server's IP address, which is used by workstations to communicate with the SAM Server.

NOTE: The IP address shown below is an example; your SAM Server IP address will be different.

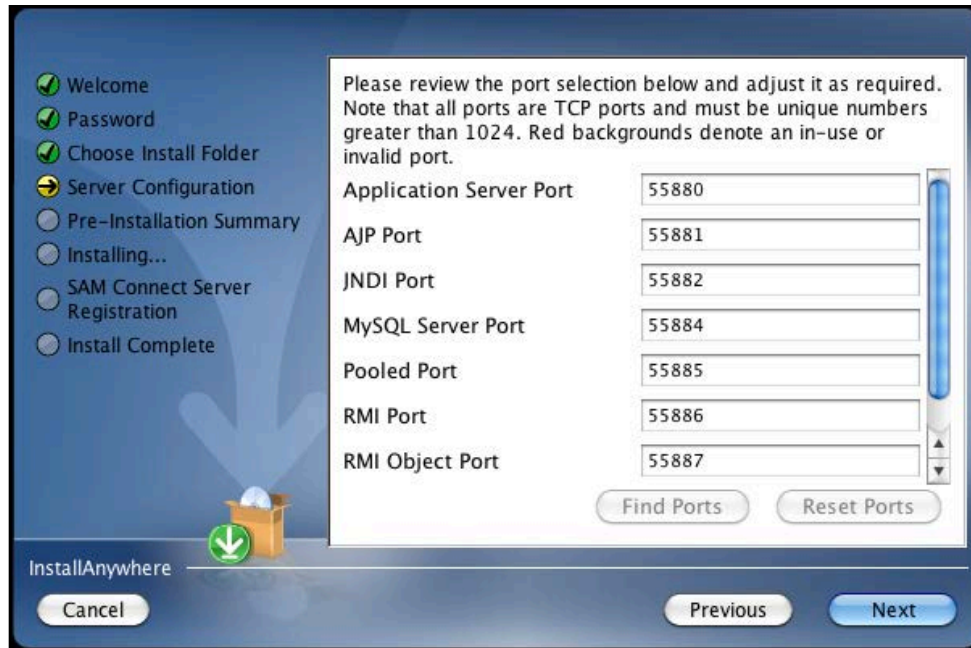

The program will automatically load the server software to this IP address; make sure the IP address is correct as displayed. If it is not, enter the correct IP address.

If the server has more than one network interface card (NIC), this screen will display multiple IPs. Choose the IP that the client workstations will use. The server IP and client IP must match.

Click **Next** to continue installation.

Port Configuration Screen

The Port Configuration Screen appears next.

This screen lists the ports selected by the installation program. Scholastic recommends letting the installation program find and set ports. If a port number appears in red, it is in use and needs to be changed. Port numbers that are black should be used as is.

To change a port, click **Find Ports** and the program will find an available port. To reset the original ports, click **Reset Ports**.

The standard application server port number used for student and teacher workstations is 55880. Selecting this or any other port opens a window reminding installers that the port must be allowed to clear any firewall settings. Access your system's firewall program to confirm that this port may be used to communicate with the workstations.

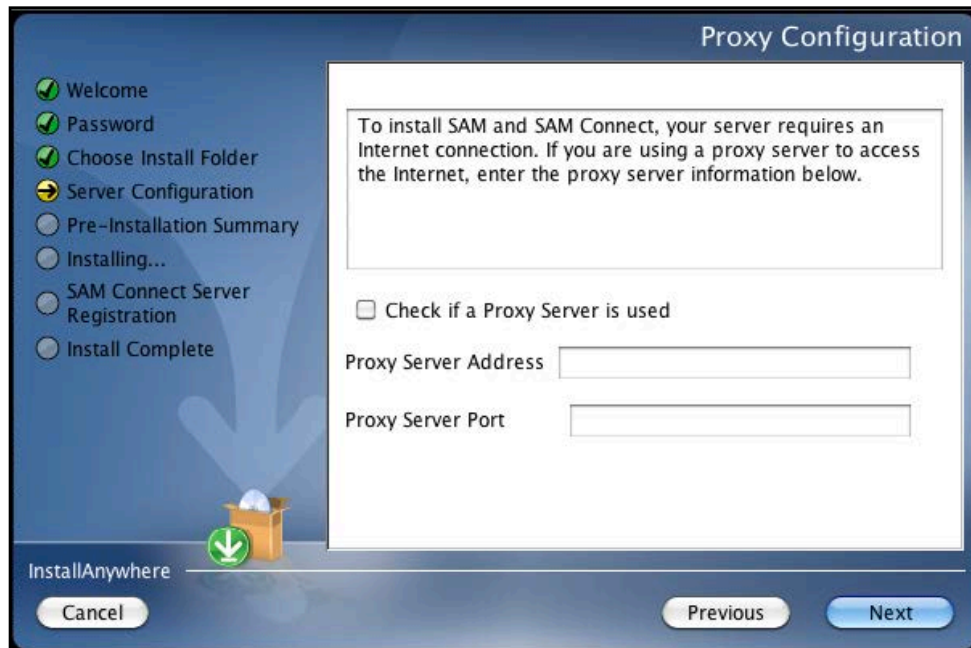

See the [Scholastic Education Product Support](#) website for more information on ports and firewalls.

Click **Next** to continue.

Proxy Configuration Screen

The Proxy Configuration Screen configures the software for the server's Internet connection.

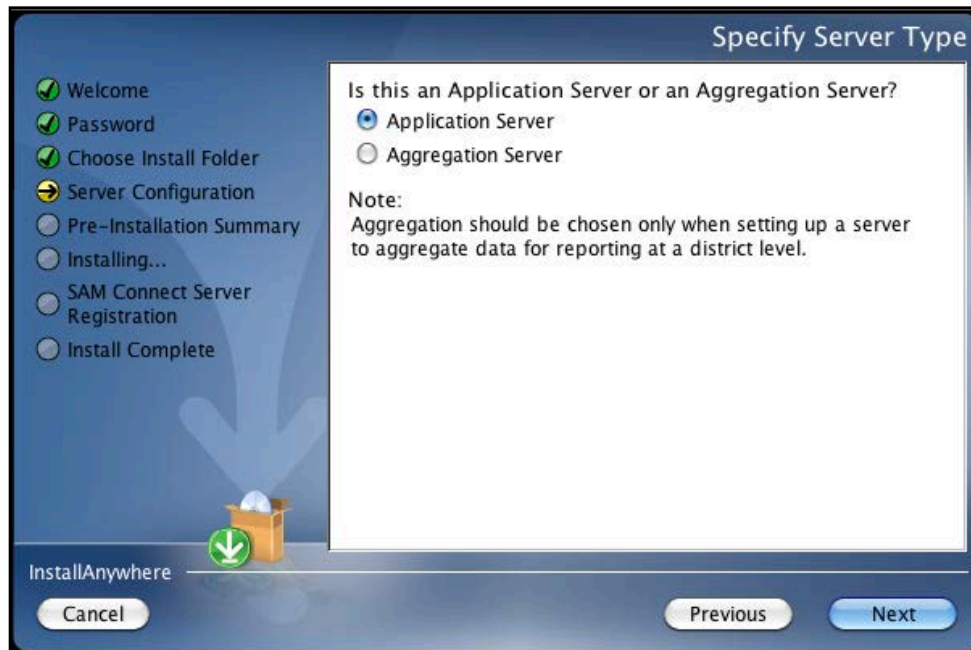

Users outside the United States do not need to register with SAM Connect, so this step can be skipped.

Click **Next** to continue.

Specify Server Type Screen

This screen asks users to name the type of server to which SAM is being installed.

Choose **Application Server** unless setting up the SAM Server to aggregate data for reporting at the district level. In these cases, choose **Aggregation Server**. See the [SAM Data Management Manual](#) for more information on aggregation servers.

Click **Next** to continue.

Program Deactivation Screen

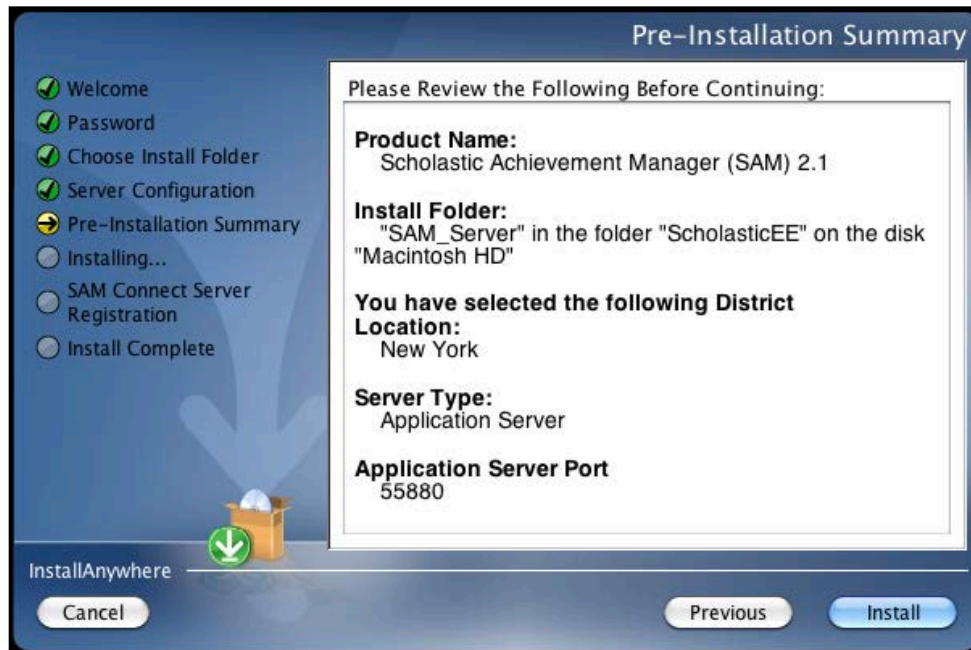

If upgrading from an earlier version of SAM, the installer will deactivate the older versions of Scholastic programs.

Install the 2.1 version of each of the programs listed when the SAM Server installation is complete.

Click **Next** to continue.

Pre-Installation Summary Screen

This screen displays the system settings and resources required for the SAM Server installation. Review this screen carefully.

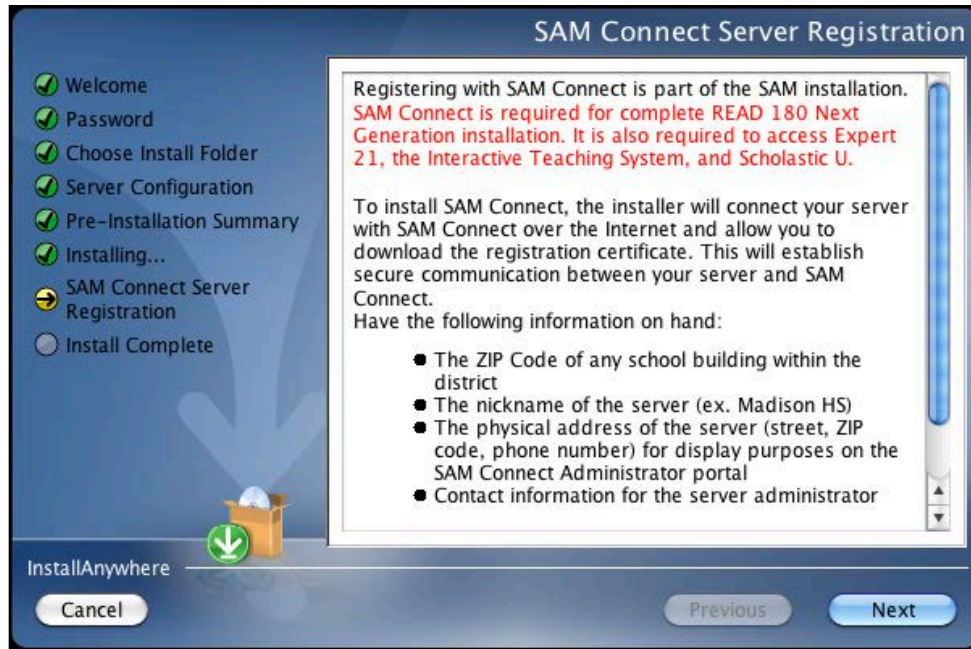

After reviewing and verifying all the information, click **Install** to continue.

SAM Connect Server Registration Screen

The SAM Connect Server Registration Screen appears prior to the Install Complete Screen.

Users outside the United States do not need to register with SAM Connect.

Click **Next** to move to the next installation step.

A browser window will open with the SAM Connect Registration Wizard. Close the browser window and continue with installation at the SAM Connect Verification Screen.

SAM Connect Verification Screen

Users outside the United States do not need to verify the SAM Connect certificate.

Click **Next** from this screen. The following message window opens:

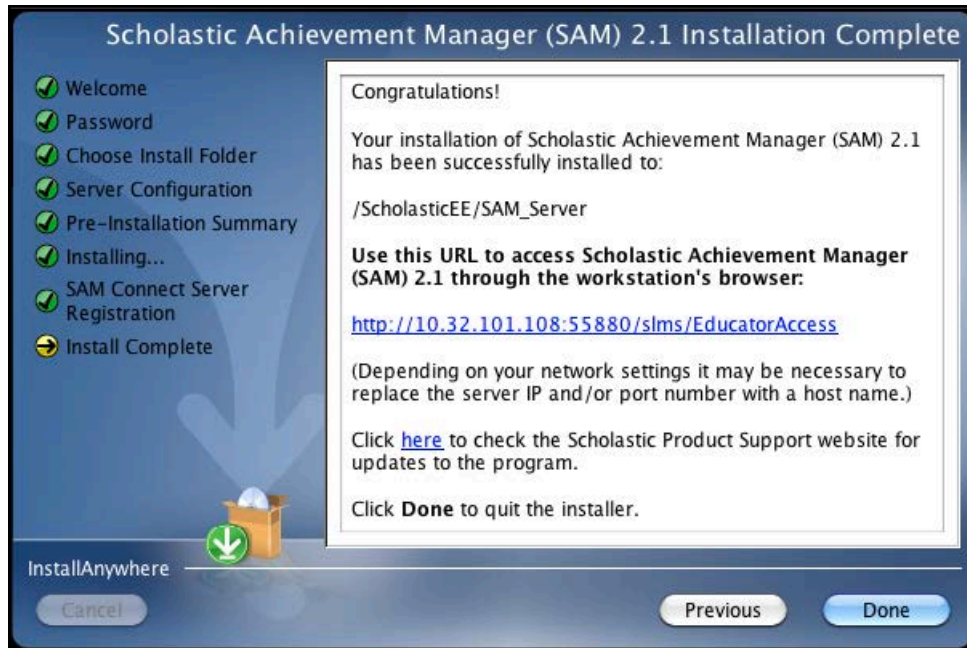

Click **Continue** from the message window. A second message window opens:

Click **OK** from this message window to finish the SAM installation.

Installation Complete Screen

When the installation is complete, the system displays a screen summarizing important information about the server installation.

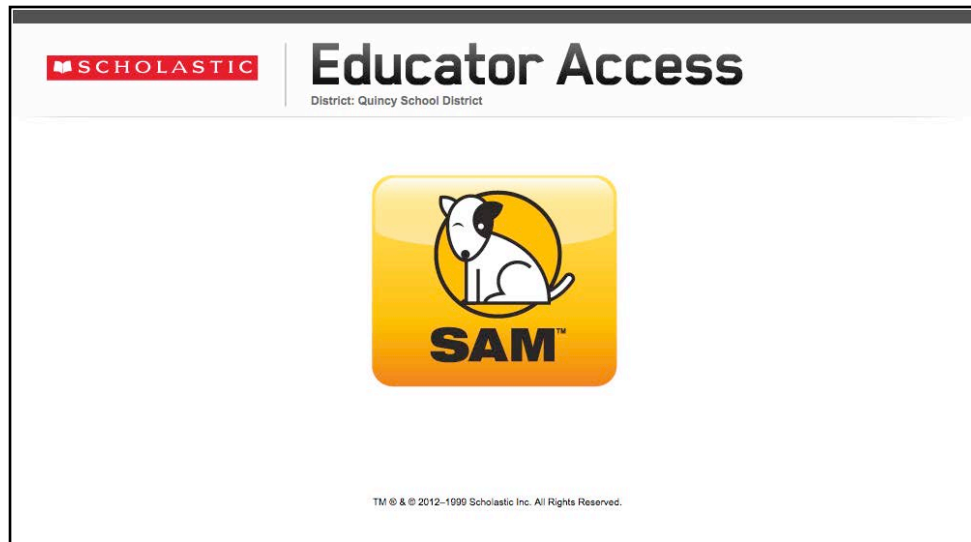

Record the URL from this screen. This is the connection SAM will use to connect the SAM Server to workstations.

After writing down the above information, click **Done** to close the SAM installation program.

A Note About Adobe Reader: SAM requires Adobe Reader to work correctly. Go to the Adobe website, www.adobe.com, to download Adobe Reader.

Verifying the SAM Installation

To verify that the SAM installation was successful, click the URL link from the Installation Complete Screen, or enter the URL into any workstation's browser program. The following screen should appear in the browser:

Click the SAM icon to go to the SAM Login Screen.

If the Educator Access Screen does not appear, check these browser settings on the server and workstation:

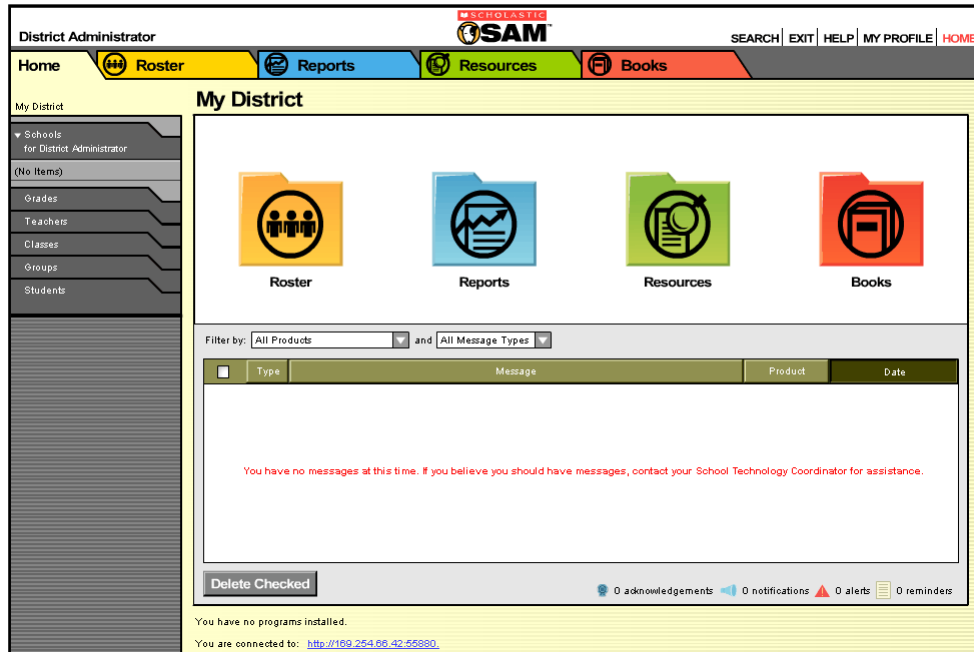

- **Flash:** Should be version 10.2 plug-in (enabled by default) and must not be disabled
- **Java:** Should be JavaScript (enabled by default) and must not be disabled
- **Pop-Up Blockers:** Must be disabled, or the Student and Educator Access pages must be excepted
- **Security Level Settings:** Default settings are supported; Internet Explorer Maximum Security levels are not supported
- **Images Enabled:** Default settings are supported; Image Display must not be turned off
- **Privacy Settings:** Default settings are supported; Maximum Privacy Setting (disabling cookies) is not supported

Log in to SAM using SAM's installed temporary username and password. The username is dadmin and the password is SAM@dm1n.

To log in to SAM from the Login Screen:

1. Enter "dadmin" in the Username field.
2. Enter "SAM@dm1n" in the Password field.
3. Click **Sign In** to open the SAM Home Screen.

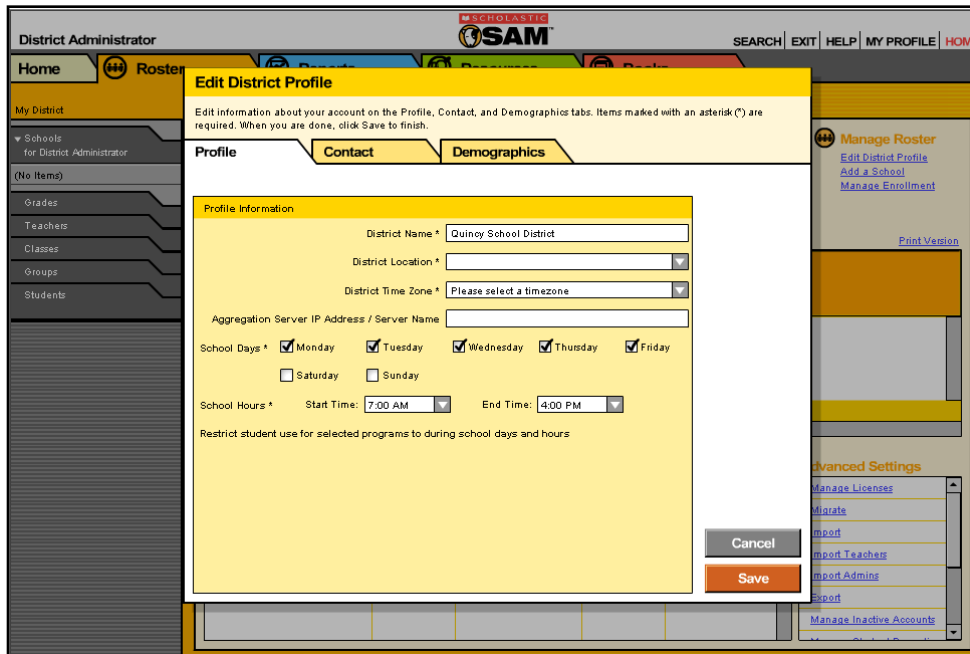

If the SAM Home Screen (above) appears, then SAM has installed correctly.

If this screen does not appear, restart the installation process. If the second attempt also fails, contact Technical Support (page 31).

Change the Username and Password

To maintain proper security measures for SAM, change the username and password immediately. To change the username and password:

The screenshot shows the 'Edit District Profile' dialog box in the SAM District Administrator interface. The dialog has three tabs: Profile, Contact, and Demographics. The Profile tab is active, showing the following fields and options:

- District Name * (text input): Quinoy School District
- District Location * (dropdown menu)
- District Time Zone * (dropdown menu): Please select a timezone
- Aggregation Server IP Address / Server Name (text input)
- School Days * (checkboxes): Monday, Tuesday, Wednesday, Thursday, Friday (all checked); Saturday, Sunday (unchecked)
- School Hours * (Start Time: 7:00 AM, End Time: 4:00 PM)
- Restrict student use for selected programs to during school days and hours (checkbox)

The Contact tab (which contains the Username and Password fields) is not visible in this view. The dialog also includes 'Cancel' and 'Save' buttons at the bottom right.

1. Click the **My Profile** link in the upper right corner of the Home Screen to open the Edit District Profile Screen. The Username and Password fields are on the Contact tab.
2. Enter the information on the screen. Items with an asterisk [*] are required. Click **Save** to close the screen and return to the Home Screen. Passwords must contain 6 characters and at least one number.
3. Log out, then use the new username and password to sign in to SAM.

Use the check boxes and pull-down menus to select the district's school days and hours. This is important for setting controls on student use of programs outside of school. Select the programs that require set time controls by clicking the check box next to the program.

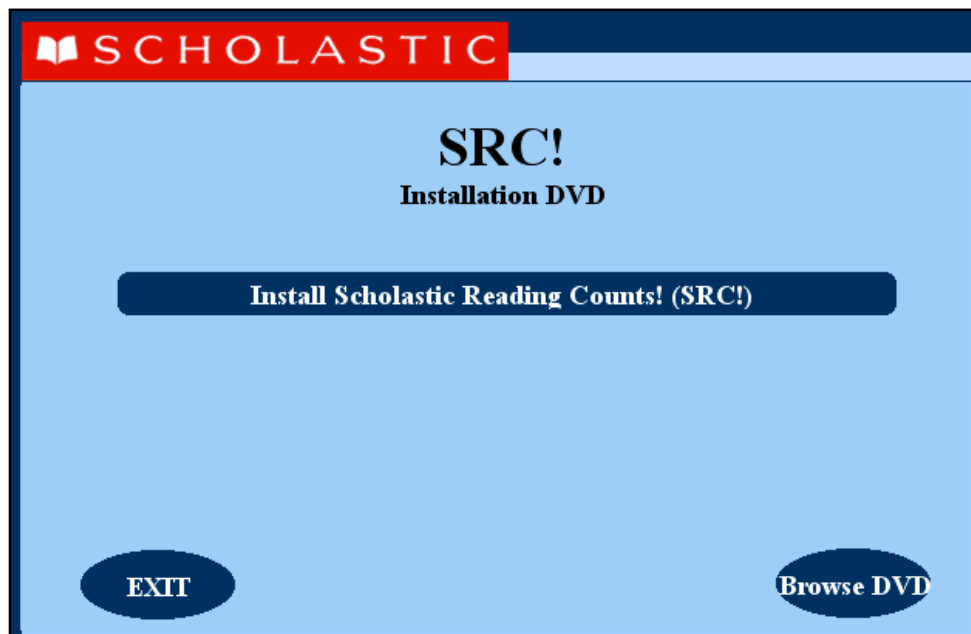

NOTE: If upgrading from an earlier version of SAM, password requirements will default to version 1.9's more stringent requirements (eight to sixteen characters, mixed case, one numeral and one special character). Your district administrator may change these requirements through the SAM Server Utility. Previously set passwords and password requirements are unaffected.

Installing **SRC!**

Install **SRC!** on the server computer that hosts the SAM Server.

Insert the **SRC!** Installation DVD (Disc 2) into the computer's DVD-ROM drive. Double-click the DVD icon on the desktop, then double-click **Install** to open the Installation Screen below.

Click **Install Scholastic Reading Counts! (SRC!)** to begin the installation.

Windows Installation Note: On Windows-based platforms, the splash screen appears after inserting the DVD-ROM.

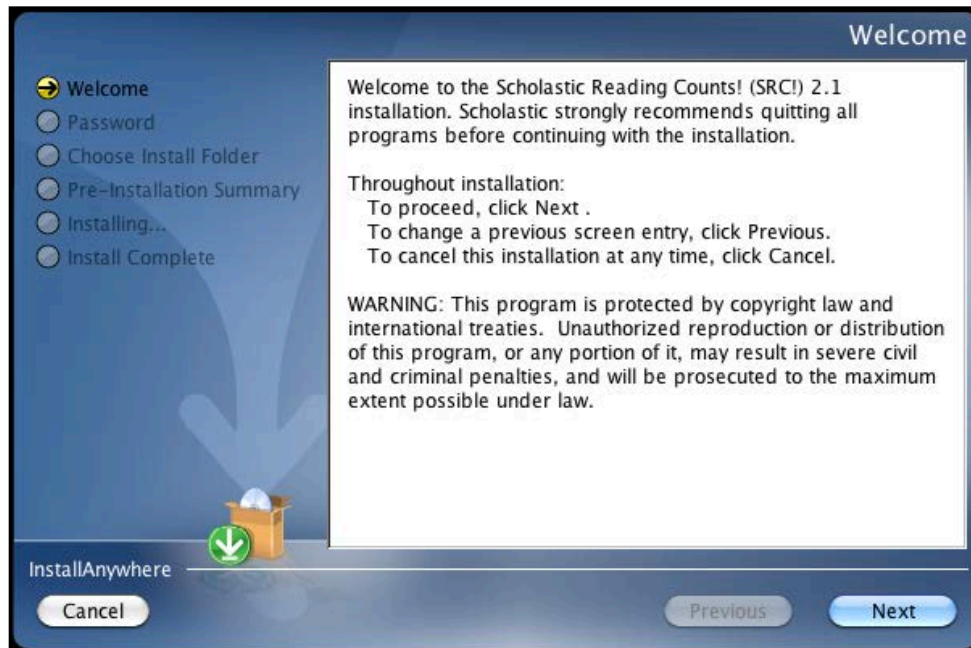

Password Screen

If installing on a OS X-based server, the Password Screen appears. If installing on a Windows-based server, the Welcome Screen, described on the following page, appears.

Enter the system password and click **OK**.

Welcome Screen

Clicking **Install Scholastic Reading Counts! (SRC!)** launches the Welcome Screen.

Installation instructions appear in the right window, while the left side of the screen displays progress through the installation process. The following buttons appear throughout the process:

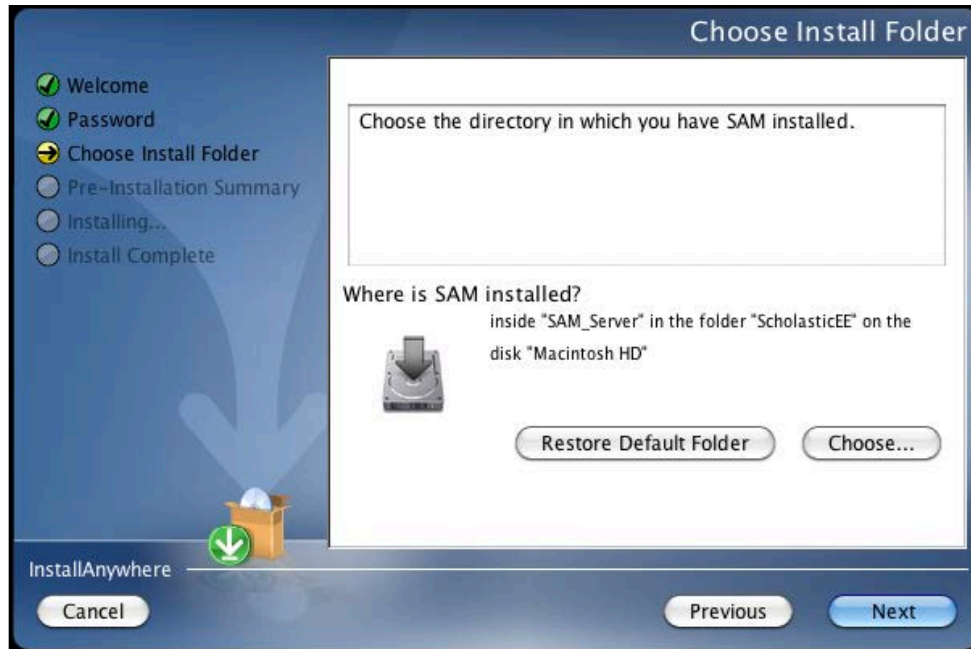

- **Next:** Click to continue the installation
- **Previous:** Click to return to a previous screen
- **Cancel:** Click to exit the installation process at any time

Click **Next** to continue installation.

Choose Install Folder Screen

The installation program automatically detects where the SAM Server has been installed and selects this as the default folder for installation of the SRC! Server.

SCHOLASTIC STRONGLY RECOMMENDS USING THIS DEFAULT FOLDER.

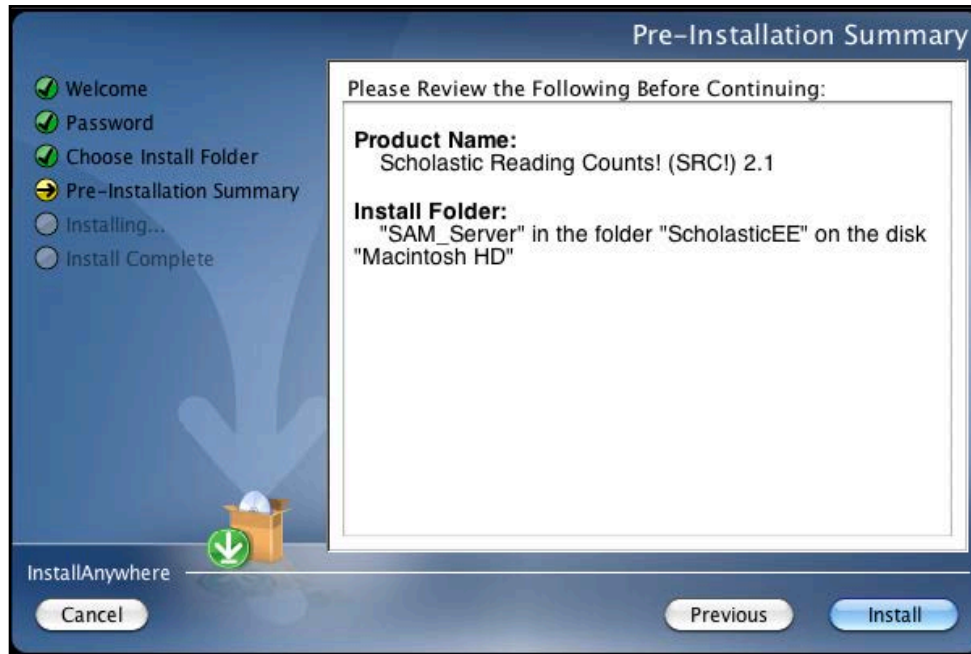

To select the default folder, click **Next**. The program automatically installs the software to the folder.

To select a different folder, click **Choose**. This opens a Select a Folder Screen. Find the folder to install the software to and click **OK** (or **Open** on OS X-based computers). The Choose Install Folder Screen reappears with the new folder selected.

To restore the option for the default folder, click **Restore Default Folder**.

Pre-Installation Summary Screen

Review the summary of installation choices.

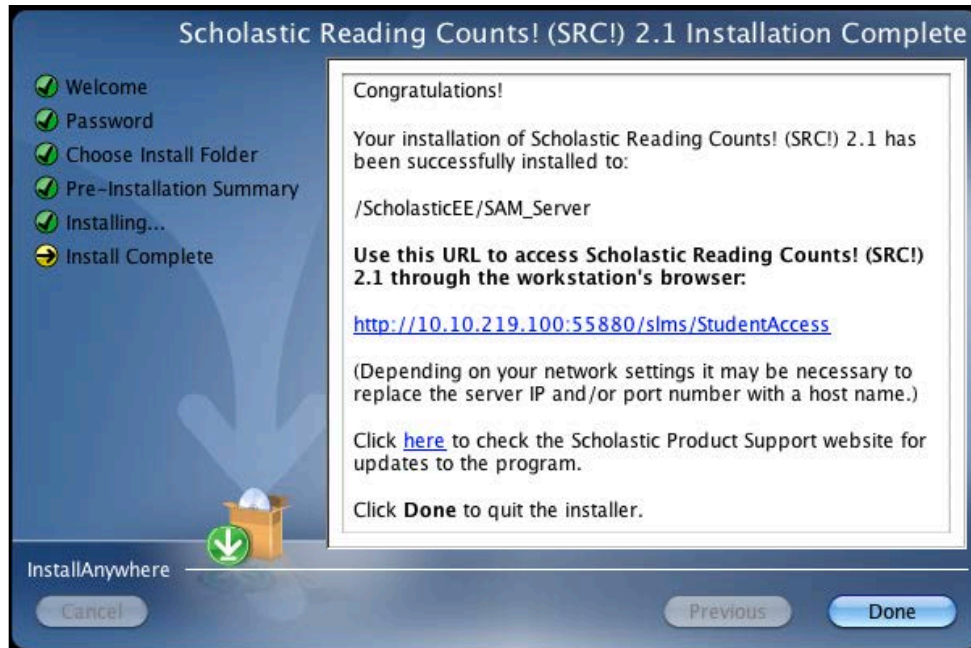

If satisfied with the choices, click **Install**. This installs the selected Server components onto the computer.

If not satisfied with the choices, click **Previous** to return to the preceding screens in the installation process.

Installation Complete Screen

SRC! is now installed.

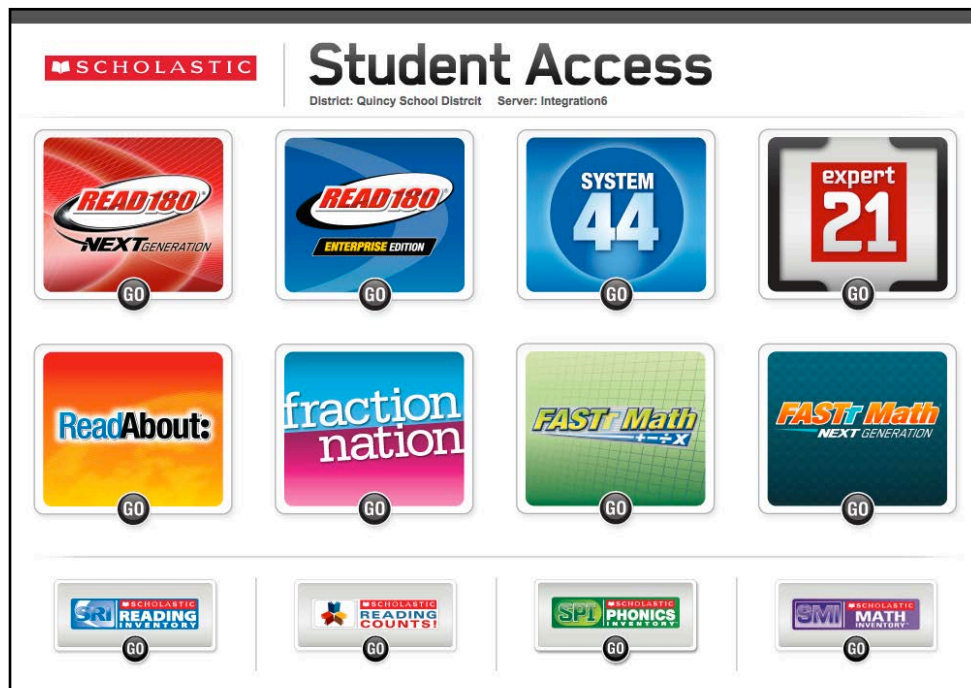

Note that the link listed on this screen should match the SAM Server URL entered during SAM installation (*page 17*). If it does not, reinstall the *SRC!* Server software and choose the correct location at the Choose Install Folder Screen step.

The listed link is the URL that student and teacher workstations will use to access *SRC!* Write this link down and bookmark it on workstations that will access *SRC!*

Click **Done** to close the *SRC!* Server Installation window and return to the *SRC!* installer screen.

Launching SRC!

To verify that the SRC! installation was successful, click the URL link from the Installation Complete Screen, or enter the URL into any workstation's browser program. The SRC! icon should appear on the Student Access Screen:

Click the SRC! icon to launch SRC! and go to the SRC! Login Screen.

If the Student Access Screen does not appear, check these browser settings on the server and workstation. If the problem continues, contact Technical Support (page 31).

- **Flash:** Should be version 10.2 plug-in (enabled by default) and must not be disabled
- **Java:** Should be JavaScript (enabled by default) and must not be disabled
- **Pop-Up Blockers:** Must be disabled, or the Student and Educator Access pages must be excepted
- **Security Level Settings:** Default settings are supported; Internet Explorer Maximum Security levels are not supported
- **Images Enabled:** Default settings are supported; Image Display must not be turned off
- **Privacy Settings:** Default settings are supported; Maximum Privacy Setting (disabling cookies) is not supported

Initial SAM Setup

After installing the entire purchased Scholastic suite of programs, activate the licenses to make the programs accessible to students. Licenses may be activated from any SAM workstation.

The screenshot shows the SAM web interface. At the top, the user is logged in as Sarah Greene. The navigation bar includes tabs for Home, Roster, Reports, Resources, Books, and Portfolio. The main content area is titled 'My District' and shows the profile for Quincy School District. The 'Programs' section contains a table with the following data:

Program	Settings	Grading Tools	Portfolio	Certificates
READ 180 Enterprise Edition	Settings	Grading Tools		Certificates
READ 180 Next Generation	Settings	Grading Tools	Portfolio	Certificates
rSkills Tests Next Generation	Settings	Grading Tools	Portfolio	
Scholastic Reading Counts!	Settings	Grading Tools		Certificates
Scholastic Reading Inventory	Settings	Grading Tools		

The 'Advanced Settings' section on the right includes links for Manage Licenses, Import, Import Teachers, Import Admins, Export, Manage Inactive Accounts, and Manage Student Promotions.

To activate licenses:

1. Log in to SAM (as a district administrator).
2. Click the Roster tab and select **Manage Licenses** from the Advanced Settings list.

READ 180 EE Stage B	10000	152	9848

* Includes Active and Inactive Students.

Return to Profile

- Note the installation code at the top of the screen.
- Contact Scholastic Customer Service at +1 646-330-5288, and provide the representative with the school or district address, purchase order number, and installation code. The representative will then provide a license key.
- Enter the license key in the License Key field and click **Certify**.

6. A window appears when the licenses are successfully added. To add another license, click **Add New License**. To return to the district Roster tab, click **Return To Roster**.

The SRC! software is now installed. See the [Scholastic Reading Counts! Software Manual](#) for instruction on using the program in the classroom and the [SAM Settings and Reports for Scholastic Reading Counts!](#) manual for using SAM to set SRC! student settings and generate reports.

Technical Support

For questions or other support needs, visit the [Scholastic Education Product Support](http://www.scholastic.com/src/productsupport) website at: www.scholastic.com/src/productsupport.

The screenshot shows the Scholastic Education Product Support website. At the top, there is a navigation bar with links for Teachers, Parents, Kids, Administrator, Librarians, and More. A search bar is also present. Below the navigation bar, there is a main header with 'EDUCATION PRODUCT SUPPORT' and links for 'CONTACT US' and 'LIVE HELP'. The main content area is divided into several sections:

- PRODUCTS:** A list of products including READ 180 ENTERPRISE EDITION, READ 180 NEXT GENERATION, SYSTEM 44, EXPERT 21, SCHOLASTIC ACHIEVEMENT MANAGER (SAM), SCHOLASTIC READING COUNTS! (SRC!), SCHOLASTIC READING INVENTORY (SRI), SCHOLASTIC PHONICS INVENTORY (SPI), SCHOLASTIC MATH INVENTORY (SMI), FASTT MATH, READABOUT, FRACTION NATION, EXPERT SPACE, BIG DAY FOR PREK, BOOKFLIX, SCHOLASTIC RED, WIGGLEWORKS, and ZIP ZOOM ENGLISH.
- SCHOLASTIC READING COUNTS! (SRC!) PRODUCT SUPPORT:** A section providing technical information for SRC!. It includes a paragraph about accessing the latest technical information and a link to 'Learn More (PDF) >>'. Below this, there are tabs for 'Product Information', 'Software Updates', and 'Manuals'. Under 'Product Information', there is a table of documents for download.
- BROWSER-BASED SOFTWARE AVAILABLE MAY 2011!** A section announcing the release of version 2.0 of the Enterprise Edition software, with a link to 'Learn More (PDF) >>'. Below this is a 'NEED HELP?' section with links to 'Browse Knowledge Base >>' and 'Contact Us >>'.

Title	Date	Version	Size	Pages	File Type	
Enterprise Edition v2.0 (including READ 180 Next Generation System Requirements & Tech Overview)	03-15-11	Enterprise Edition 2.0	243K	8	PDF	Download Now >>
Scholastic Technical Implementation Guide	12-02-10	Enterprise Edition v1.10.0	959K	40	PDF	Download Now >>

At the site, users will find program documentation, manuals, and guides, as well as Frequently Asked Questions and live chat support.

For specific questions regarding the Scholastic program suite, contact customer service to speak to a representative for each program powered by SAM at:

- By phone: +1 646-330-5288
- By email: international@scholastic.com

For specific questions about using SAM with your Scholastic programs, click **Help** in the Quick Links section along the top of any screen in SAM.
