You'll love learning about these amazing animals...once you find them!

Summary: For some animals it pays to be brightly colored and highly noticeable, especially if it frightens away a predator. However, some animals prefer a different approach: hiding in plain sight.

This reader provides a basic introduction to animals that use camouflage. It shows how many animals--in the air, on land, or under the sea--use their camouflage to either evade their enemies or hunt their prey. Whether they're blending in with their environment or looking like another animal altogether, their survival depends entirely on how well th...

Learn all about these animals and where they go during winter!

Summary: During the cold winter months, some animals go into a deep sleep called hibernation. You'd be surprised to learn about all of the other animals that hibernate besides bears, like squirrels, skunks, chipmunks and bats. Children will learn how an animal prepares for hibernation by stuffing itself with food so that it can survive in its dormant months and how animals prepare "safe spots," like dens and burrows, so that they will be protected from predators as they sleep.

Nic Bishop's Sibert Honor Book, adapted for the youngest readers

Summary:

There are more than 38,000 types of spiders. They live almost everywhere, even in your basement! Spiders have eight legs and fangs. They spin silk into webs-and use the webs to catch their dinner!

Now even the youngest readers can join Sibert-Honor author, photographer, and biologist Nic Bishop as he takes a closer look at the world's most amazing animals. In this first book, Nic introduces fun facts about spiders and their bodies, habits, and life cycle. The simple, easy-to-read text is perfect for beginners, and the eye-catching pho...
