

# SYSTEMS THINKING

The world is full of related systems: Thanksgiving dinner, a baseball stadium, and even a dentist's office. Select a system and draw a simple sketch of what it looks like. Then complete the chart below to find out how all the parts of this system work together.

## SKETCH YOUR SYSTEM.

**READY? SET? ACTIVATE!** Now it's time to create a digital version of this system! Go to [www.activategames.org/getting-started](http://www.activategames.org/getting-started) and sign in. Then follow the directions to create an original video game based on this real-life system.

Submit your video game designs to the [Scholastic Art & Writing Awards](http://www.artandwriting.org) at [www.artandwriting.org](http://www.artandwriting.org) for the chance to win scholarships and awards!
