

# ROBOT POWER!

Robots have a part for every job!  
They can perform lots of amazing tasks.

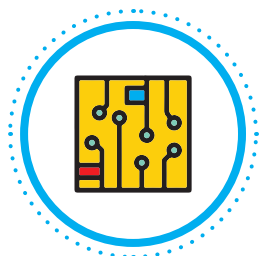

## CAMERA

It can record video in tiny spaces, underwater, even inside your body!

## SENSOR

It senses light and sound (like your eyes and ears do!).

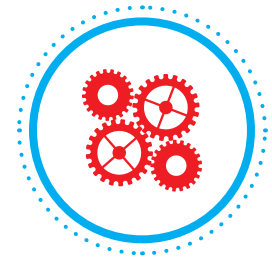

## CONTROLLER

The robot's "brain" helps it follow commands.

## PINCERS

They can grip things, lift them, and move them around.

## GEARS

They help parts (like elbows) bend and move.
